

Three Easy Steps. One Lifetime Warranty.

Tres pasos sencillos. Una garantía de por vida.

Customer Lifetime Warranty guarantees that your installation products will be free from manufacturing defects and will not break down or deteriorate under normal usage. If a defect occurs, Customers cover the cost of materials and labor to repair.

La garantía de por vida del Cliente garantiza que los productos de las instalaciones estarán libres de defectos de fabricación que no se deteriorarán ni deteriorarán bajo condiciones de uso normal. En caso de producirse un defecto, el Cliente cubre el costo de los materiales y el mano de obra para efectuar la reparación.

1 Prep Preparar

Determine products needed to prepare your surface.
Determinar los productos necesarios para preparar la superficie.

2 Set Instalar

Determine your setting material needs.
Determinar las necesidades de materiales de instalación.

3 Grout Terminar

Choose your grout joint size and color.
Elegir el tamaño de la junta y el color de la resina de terminación.

Example over concrete
Ejemplo sobre concreto

Ceramic Tile Caulk Sanded & Non-Sanded

Use where horizontal and vertical surfaces meet.
Use around tubs and sinks.

Calafatear para
Azulejos de Cerámica
Con Arena y Sin Arena

High performance elastomeric construction compounds.
Resinas de construcción elásticas de alto rendimiento.

High performance elastomeric construction compounds.

This Product Contributes to
Leadership in Energy and
Environmental Design® certification.

Este producto contribuye a la certificación "Leadership in Energy and Environmental Design" (LEED).

POLYBLEND®

Sanded Grout For Joints 1/8" to 1/2"

Con Arena

Para juntas de lechada de
3 mm a 13 mm

Non-Sanded Grout For Joints Up to 1/8"

Sin Arena

Para juntas de lechada de
hasta 3 mm

Polyblend Grouts produce hard, durable
grout joints and are easy to use, just
add water and mix.

Las lechadas Polyblend producen juntas de
lechada duraderas y duraderas y son fáciles de usar,
solo con agua agregada según la mezcla.

Coverage Cobertura

How much grout do I need?

Grout needed (approx.)	Polyblend Sanded Grout 1/8" to 1/2"	Polyblend Non-Sanded Grout Up to 1/8"
JOINT SIZE (ft)	1/8" to 1/2"	Up to 1/8"
10' x 10' x 1/4"	1	1
10' x 10' x 1/2"	1	1
10' x 10' x 3/4"	2	2
10' x 10' x 1"	2	2
10' x 10' x 1 1/4"	3	3

Grout needed for joints up to 1/8" is 1/2 cup per 10' x 10' ft. For joints 1/8" to 1/2" is 1 cup per 10' x 10' ft. For joints 1/2" to 1" is 1 1/2 cups per 10' x 10' ft. For joints 1" to 1 1/4" is 2 cups per 10' x 10' ft. For joints 1 1/4" to 1 1/2" is 2 1/2 cups per 10' x 10' ft. For joints 1 1/2" to 1 3/4" is 3 cups per 10' x 10' ft. For joints 1 3/4" to 2" is 3 1/2 cups per 10' x 10' ft. For joints 2" to 2 1/4" is 4 cups per 10' x 10' ft. For joints 2 1/4" to 2 1/2" is 4 1/2 cups per 10' x 10' ft. For joints 2 1/2" to 2 3/4" is 5 cups per 10' x 10' ft. For joints 2 3/4" to 3" is 5 1/2 cups per 10' x 10' ft. For joints 3" to 3 1/4" is 6 cups per 10' x 10' ft. For joints 3 1/4" to 3 1/2" is 6 1/2 cups per 10' x 10' ft. For joints 3 1/2" to 3 3/4" is 7 cups per 10' x 10' ft. For joints 3 3/4" to 4" is 7 1/2 cups per 10' x 10' ft. For joints 4" to 4 1/4" is 8 cups per 10' x 10' ft. For joints 4 1/4" to 4 1/2" is 8 1/2 cups per 10' x 10' ft. For joints 4 1/2" to 4 3/4" is 9 cups per 10' x 10' ft. For joints 4 3/4" to 5" is 9 1/2 cups per 10' x 10' ft. For joints 5" to 5 1/4" is 10 cups per 10' x 10' ft. For joints 5 1/4" to 5 1/2" is 10 1/2 cups per 10' x 10' ft. For joints 5 1/2" to 5 3/4" is 11 cups per 10' x 10' ft. For joints 5 3/4" to 6" is 11 1/2 cups per 10' x 10' ft. For joints 6" to 6 1/4" is 12 cups per 10' x 10' ft. For joints 6 1/4" to 6 1/2" is 12 1/2 cups per 10' x 10' ft. For joints 6 1/2" to 6 3/4" is 13 cups per 10' x 10' ft. For joints 6 3/4" to 7" is 13 1/2 cups per 10' x 10' ft. For joints 7" to 7 1/4" is 14 cups per 10' x 10' ft. For joints 7 1/4" to 7 1/2" is 14 1/2 cups per 10' x 10' ft. For joints 7 1/2" to 7 3/4" is 15 cups per 10' x 10' ft. For joints 7 3/4" to 8" is 15 1/2 cups per 10' x 10' ft. For joints 8" to 8 1/4" is 16 cups per 10' x 10' ft. For joints 8 1/4" to 8 1/2" is 16 1/2 cups per 10' x 10' ft. For joints 8 1/2" to 8 3/4" is 17 cups per 10' x 10' ft. For joints 8 3/4" to 9" is 17 1/2 cups per 10' x 10' ft. For joints 9" to 9 1/4" is 18 cups per 10' x 10' ft. For joints 9 1/4" to 9 1/2" is 18 1/2 cups per 10' x 10' ft. For joints 9 1/2" to 9 3/4" is 19 cups per 10' x 10' ft. For joints 9 3/4" to 10" is 19 1/2 cups per 10' x 10' ft. For joints 10" to 10 1/4" is 20 cups per 10' x 10' ft. For joints 10 1/4" to 10 1/2" is 20 1/2 cups per 10' x 10' ft. For joints 10 1/2" to 10 3/4" is 21 cups per 10' x 10' ft. For joints 10 3/4" to 11" is 21 1/2 cups per 10' x 10' ft. For joints 11" to 11 1/4" is 22 cups per 10' x 10' ft. For joints 11 1/4" to 11 1/2" is 22 1/2 cups per 10' x 10' ft. For joints 11 1/2" to 11 3/4" is 23 cups per 10' x 10' ft. For joints 11 3/4" to 12" is 23 1/2 cups per 10' x 10' ft. For joints 12" to 12 1/4" is 24 cups per 10' x 10' ft. For joints 12 1/4" to 12 1/2" is 24 1/2 cups per 10' x 10' ft. For joints 12 1/2" to 12 3/4" is 25 cups per 10' x 10' ft. For joints 12 3/4" to 13" is 25 1/2 cups per 10' x 10' ft. For joints 13" to 13 1/4" is 26 cups per 10' x 10' ft. For joints 13 1/4" to 13 1/2" is 26 1/2 cups per 10' x 10' ft. For joints 13 1/2" to 13 3/4" is 27 cups per 10' x 10' ft. For joints 13 3/4" to 14" is 27 1/2 cups per 10' x 10' ft. For joints 14" to 14 1/4" is 28 cups per 10' x 10' ft. For joints 14 1/4" to 14 1/2" is 28 1/2 cups per 10' x 10' ft. For joints 14 1/2" to 14 3/4" is 29 cups per 10' x 10' ft. For joints 14 3/4" to 15" is 29 1/2 cups per 10' x 10' ft. For joints 15" to 15 1/4" is 30 cups per 10' x 10' ft. For joints 15 1/4" to 15 1/2" is 30 1/2 cups per 10' x 10' ft. For joints 15 1/2" to 15 3/4" is 31 cups per 10' x 10' ft. For joints 15 3/4" to 16" is 31 1/2 cups per 10' x 10' ft. For joints 16" to 16 1/4" is 32 cups per 10' x 10' ft. For joints 16 1/4" to 16 1/2" is 32 1/2 cups per 10' x 10' ft. For joints 16 1/2" to 16 3/4" is 33 cups per 10' x 10' ft. For joints 16 3/4" to 17" is 33 1/2 cups per 10' x 10' ft. For joints 17" to 17 1/4" is 34 cups per 10' x 10' ft. For joints 17 1/4" to 17 1/2" is 34 1/2 cups per 10' x 10' ft. For joints 17 1/2" to 17 3/4" is 35 cups per 10' x 10' ft. For joints 17 3/4" to 18" is 35 1/2 cups per 10' x 10' ft. For joints 18" to 18 1/4" is 36 cups per 10' x 10' ft. For joints 18 1/4" to 18 1/2" is 36 1/2 cups per 10' x 10' ft. For joints 18 1/2" to 18 3/4" is 37 cups per 10' x 10' ft. For joints 18 3/4" to 19" is 37 1/2 cups per 10' x 10' ft. For joints 19" to 19 1/4" is 38 cups per 10' x 10' ft. For joints 19 1/4" to 19 1/2" is 38 1/2 cups per 10' x 10' ft. For joints 19 1/2" to 19 3/4" is 39 cups per 10' x 10' ft. For joints 19 3/4" to 20" is 39 1/2 cups per 10' x 10' ft. For joints 20" to 20 1/4" is 40 cups per 10' x 10' ft. For joints 20 1/4" to 20 1/2" is 40 1/2 cups per 10' x 10' ft. For joints 20 1/2" to 20 3/4" is 41 cups per 10' x 10' ft. For joints 20 3/4" to 21" is 41 1/2 cups per 10' x 10' ft. For joints 21" to 21 1/4" is 42 cups per 10' x 10' ft. For joints 21 1/4" to 21 1/2" is 42 1/2 cups per 10' x 10' ft. For joints 21 1/2" to 21 3/4" is 43 cups per 10' x 10' ft. For joints 21 3/4" to 22" is 43 1/2 cups per 10' x 10' ft. For joints 22" to 22 1/4" is 44 cups per 10' x 10' ft. For joints 22 1/4" to 22 1/2" is 44 1/2 cups per 10' x 10' ft. For joints 22 1/2" to 22 3/4" is 45 cups per 10' x 10' ft. For joints 22 3/4" to 23" is 45 1/2 cups per 10' x 10' ft. For joints 23" to 23 1/4" is 46 cups per 10' x 10' ft. For joints 23 1/4" to 23 1/2" is 46 1/2 cups per 10' x 10' ft. For joints 23 1/2" to 23 3/4" is 47 cups per 10' x 10' ft. For joints 23 3/4" to 24" is 47 1/2 cups per 10' x 10' ft. For joints 24" to 24 1/4" is 48 cups per 10' x 10' ft. For joints 24 1/4" to 24 1/2" is 48 1/2 cups per 10' x 10' ft. For joints 24 1/2" to 24 3/4" is 49 cups per 10' x 10' ft. For joints 24 3/4" to 25" is 49 1/2 cups per 10' x 10' ft. For joints 25" to 25 1/4" is 50 cups per 10' x 10' ft. For joints 25 1/4" to 25 1/2" is 50 1/2 cups per 10' x 10' ft. For joints 25 1/2" to 25 3/4" is 51 cups per 10' x 10' ft. For joints 25 3/4" to 26" is 51 1/2 cups per 10' x 10' ft. For joints 26" to 26 1/4" is 52 cups per 10' x 10' ft. For joints 26 1/4" to 26 1/2" is 52 1/2 cups per 10' x 10' ft. For joints 26 1/2" to 26 3/4" is 53 cups per 10' x 10' ft. For joints 26 3/4" to 27" is 53 1/2 cups per 10' x 10' ft. For joints 27" to 27 1/4" is 54 cups per 10' x 10' ft. For joints 27 1/4" to 27 1/2" is 54 1/2 cups per 10' x 10' ft. For joints 27 1/2" to 27 3/4" is 55 cups per 10' x 10' ft. For joints 27 3/4" to 28" is 55 1/2 cups per 10' x 10' ft. For joints 28" to 28 1/4" is 56 cups per 10' x 10' ft. For joints 28 1/4" to 28 1/2" is 56 1/2 cups per 10' x 10' ft. For joints 28 1/2" to 28 3/4" is 57 cups per 10' x 10' ft. For joints 28 3/4" to 29" is 57 1/2 cups per 10' x 10' ft. For joints 29" to 29 1/4" is 58 cups per 10' x 10' ft. For joints 29 1/4" to 29 1/2" is 58 1/2 cups per 10' x 10' ft. For joints 29 1/2" to 29 3/4" is 59 cups per 10' x 10' ft. For joints 29 3/4" to 30" is 59 1/2 cups per 10' x 10' ft. For joints 30" to 30 1/4" is 60 cups per 10' x 10' ft. For joints 30 1/4" to 30 1/2" is 60 1/2 cups per 10' x 10' ft. For joints 30 1/2" to 30 3/4" is 61 cups per 10' x 10' ft. For joints 30 3/4" to 31" is 61 1/2 cups per 10' x 10' ft. For joints 31" to 31 1/4" is 62 cups per 10' x 10' ft. For joints 31 1/4" to 31 1/2" is 62 1/2 cups per 10' x 10' ft. For joints 31 1/2" to 31 3/4" is 63 cups per 10' x 10' ft. For joints 31 3/4" to 32" is 63 1/2 cups per 10' x 10' ft. For joints 32" to 32 1/4" is 64 cups per 10' x 10' ft. For joints 32 1/4" to 32 1/2" is 64 1/2 cups per 10' x 10' ft. For joints 32 1/2" to 32 3/4" is 65 cups per 10' x 10' ft. For joints 32 3/4" to 33" is 65 1/2 cups per 10' x 10' ft. For joints 33" to 33 1/4" is 66 cups per 10' x 10' ft. For joints 33 1/4" to 33 1/2" is 66 1/2 cups per 10' x 10' ft. For joints 33 1/2" to 33 3/4" is 67 cups per 10' x 10' ft. For joints 33 3/4" to 34" is 67 1/2 cups per 10' x 10' ft. For joints 34" to 34 1/4" is 68 cups per 10' x 10' ft. For joints 34 1/4" to 34 1/2" is 68 1/2 cups per 10' x 10' ft. For joints 34 1/2" to 34 3/4" is 69 cups per 10' x 10' ft. For joints 34 3/4" to 35" is 69 1/2 cups per 10' x 10' ft. For joints 35" to 35 1/4" is 70 cups per 10' x 10' ft. For joints 35 1/4" to 35 1/2" is 70 1/2 cups per 10' x 10' ft. For joints 35 1/2" to 35 3/4" is 71 cups per 10' x 10' ft. For joints 35 3/4" to 36" is 71 1/2 cups per 10' x 10' ft. For joints 36" to 36 1/4" is 72 cups per 10' x 10' ft. For joints 36 1/4" to 36 1/2" is 72 1/2 cups per 10' x 10' ft. For joints 36 1/2" to 36 3/4" is 73 cups per 10' x 10' ft. For joints 36 3/4" to 37" is 73 1/2 cups per 10' x 10' ft. For joints 37" to 37 1/4" is 74 cups per 10' x 10' ft. For joints 37 1/4" to 37 1/2" is 74 1/2 cups per 10' x 10' ft. For joints 37 1/2" to 37 3/4" is 75 cups per 10' x 10' ft. For joints 37 3/4" to 38" is 75 1/2 cups per 10' x 10' ft. For joints 38" to 38 1/4" is 76 cups per 10' x 10' ft. For joints 38 1/4" to 38 1/2" is 76 1/2 cups per 10' x 10' ft. For joints 38 1/2" to 38 3/4" is 77 cups per 10' x 10' ft. For joints 38 3/4" to 39" is 77 1/2 cups per 10' x 10' ft. For joints 39" to 39 1/4" is 78 cups per 10' x 10' ft. For joints 39 1/4" to 39 1/2" is 78 1/2 cups per 10' x 10' ft. For joints 39 1/2" to 39 3/4" is 79 cups per 10' x 10' ft. For joints 39 3/4" to 40" is 79 1/2 cups per 10' x 10' ft. For joints 40" to 40 1/4" is 80 cups per 10' x 10' ft. For joints 40 1/4" to 40 1/2" is 80 1/2 cups per 10' x 10' ft. For joints 40 1/2" to 40 3/4" is 81 cups per 10' x 10' ft. For joints 40 3/4" to 41" is 81 1/2 cups per 10' x 10' ft. For joints 41" to 41 1/4" is 82 cups per 10' x 10' ft. For joints 41 1/4" to 41 1/2" is 82 1/2 cups per 10' x 10' ft. For joints 41 1/2" to 41 3/4" is 83 cups per 10' x 10' ft. For joints 41 3/4" to 42" is 83 1/2 cups per 10' x 10' ft. For joints 42" to 42 1/4" is 84 cups per 10' x 10' ft. For joints 42 1/4" to 42 1/2" is 84 1/2 cups per 10' x 10' ft. For joints 42 1/2" to 42 3/4" is 85 cups per 10' x 10' ft. For joints 42 3/4" to 43" is 85 1/2 cups per 10' x 10' ft. For joints 43" to 43 1/4" is 86 cups per 10' x 10' ft. For joints 43 1/4" to 43 1/2" is 86 1/2 cups per 10' x 10' ft. For joints 43 1/2" to 43 3/4" is 87 cups per 10' x 10' ft. For joints 43 3/4" to 44" is 87 1/2 cups per 10' x 10' ft. For joints 44" to 44 1/4" is 88 cups per 10' x 10' ft. For joints 44 1/4" to 44 1/2" is 88 1/2 cups per 10' x 10' ft. For joints 44 1/2" to 44 3/4" is 89 cups per 10' x 10' ft. For joints 44 3/4" to 45" is 89 1/2 cups per 10' x 10' ft. For joints 45" to 45 1/4" is 90 cups per 10' x 10' ft. For joints 45 1/4" to 45 1/2" is 90 1/2 cups per 10' x 10' ft. For joints 45 1/2" to 45 3/4" is 91 cups per 10' x 10' ft. For joints 45 3/4" to 46" is 91 1/2 cups per 10' x 10' ft. For joints 46" to 46 1/4" is 92 cups per 10' x 10' ft. For joints 46 1/4" to 46 1/2" is 92 1/2 cups per 10' x 10' ft. For joints 46 1/2" to 46 3/4" is 93 cups per 10' x 10' ft. For joints 46 3/4" to 47" is 93 1/2 cups per 10' x 10' ft. For joints 47" to 47 1/4" is 94 cups per 10' x 10' ft. For joints 47 1/4" to 47 1/2" is 94 1/2 cups per 10' x 10' ft. For joints 47 1/2" to 47 3/4" is 95 cups per 10' x 10' ft. For joints 47 3/4" to 48" is 95 1/2 cups per 10' x 10' ft. For joints 48" to 48 1/4" is 96 cups per 10' x 10' ft. For joints 48 1/4" to 48 1/2" is 96 1/2 cups per 10' x 10' ft. For joints 48 1/2" to 48 3/4" is 97 cups per 10' x 10' ft. For joints 48 3/4" to 49" is 97 1/2 cups per 10' x 10' ft. For joints 49" to 49 1/4" is 98 cups per 10' x 10' ft. For joints 49 1/4" to 49 1/2" is 98 1/2 cups per 10' x 10' ft. For joints 49 1/2" to 49 3/4" is 99 cups per 10' x 10' ft. For joints 49 3/4" to 50" is 99 1/2 cups per 10' x 10' ft. For joints 50" to 50 1/4" is 100 cups per 10' x 10' ft. For joints 50 1/4" to 50 1/2" is 100 1/2 cups per 10' x 10' ft. For joints 50 1/2" to 50 3/4" is 101 cups per 10' x 10' ft. For joints 50 3/4" to 51" is 101 1/2 cups per 10' x 10' ft. For joints 51" to 51 1/4" is 102 cups per 10' x 10' ft.
